- 8th-grade inquiry projects are a pathway to Senior Thesis—a 20+ page publicly presented college-level research paper
- Competitive athletics program with students recruited to college athletics
- All middle school students take visual art, a performing art (choir, band, strings, theater, or theater tech), and Spanish
- Social emotional learning, wellness, and life skills are built into the middle school curriculum
- Daily round-trip bus service available to our Northeast Heights and Nob Hill families
- Field-based science curriculum means Bosque School students don't just learn science—they *do* science. Students' intellectual curiosity is unlocked through real-world experience.

100% college acceptance rate. Inquiry based learning and authentic projects like senior thesis lead to great outcomes.
